## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Herzog.

Herzog discloses an axle housing assembly comprising an axle housing having a differential housing (8), a cover (top half of 8) attached to the differential housing (see Figure 1) with an integrally formed housing body (bottom half of 8) and a pair of axle tubes (25) within the housing body (col. 2 line 107 – col.3 line 7), support means (1,23) for supporting the axle housing to a base frame (26), a repulsive force receiving member (12, see Figure 5) integrally formed on the body for coupling the body of the housing to the support means, wherein the differential housing includes a cover (top half of 8), wherein the support means includes a pair of axle brackets (23), a repulsive force receiving bolt (see Figure 9), the axle brackets including a thick portion (12, see Figure 4), a nut (see Figure 9) engaging with the bolt, the nut located in an upper portion of the differential housing (since no frame of reference has been established, any direction can be considered up).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Herzog in view of Pegg.

Herzog discloses an axle housing as described above, but does not disclose a recess surrounding the through hole for recessing the head of the bolt.

Pegg discloses a recess surrounding the through hole for recessing the head of a bolt (13).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Herzog by including a recess surrounding a through hole for recessing the head of the bolt in view of Pegg for the purpose of preventing anything from catching on the bolt head.

### ***Respons to Arguments***

Some further comments regarding the Applicant's remarks are deemed appropriate.

The Applicant argues that Herzog fails to disclose a pair of axle tubes within the housing body. In col.2 lines 107 – col.3 line 7, Herzog discloses that the axle tubes are within the housing body (also see Figure 3).

In response to applicant's argument that the Pegg reference is non-analogous art, it has been held that a prior art reference must either be in the field of applicant's endeavor or, if not, then be reasonably pertinent to the particular problem with which the applicant was concerned, in order to be relied upon as a basis for rejection of the claimed invention. See *In re Oetiker*, 977 F.2d 1443, 24 USPQ2d 1443 (Fed. Cir. 1992). In this case, the Pegg reference is classified in aircraft/skin fastening devices which is analogous art.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
